Notes to Interim Consolidated Financial Statements

Six-month periods ended August 31, 2019 and 2018

UNAUDITED - PREPARED BY MANAGEMENT IN CANADIAN DOLLARS

---

### **1. General information and nature of operations**

---

Vanadium One Iron Corp. (“**Vanadium One**” or the “**Company**”) was incorporated on February 27, 2007 pursuant to the *Business Corporations Act* (Ontario) and was classified as engaged in the exploration of its properties for base metals and precious metals. All mineral property interests held are currently in the exploration stage. The Company listed its common shares on the TSX Venture Exchange for trading upon the completion of its initial public offering (“IPO”) as disclosed in a prospectus filed with the regulators and dated May 25, 2007. On June 4, 2019 the Company changed its name from Vanadium One Energy Corp. to Vanadium One Iron Corp. The Company’s shares are listed under the symbol VONE (formerly: VDR) on the TSX Venture Exchange. These interim consolidated financial statements of the Company were authorized for issue in accordance with a resolution of the directors on October 17, 2019.

### **2. Going concern disclosure**

---

The Company’s principal assets are mining claims and deferred exploration costs relating to properties which are not in commercial projects. The Company is in the process of exploring its mining claims and has not yet determined whether or not the properties will contain economically recoverable reserves.

Several adverse conditions and events cast substantial doubt upon the validity of this assumption. Vanadium One is not currently generating any revenue from its operations. For the six-month period ended August 31, 2019, the Company recorded a net comprehensive loss of \$513,093 (August 31, 2018 - \$184,510) and an accumulated deficit of \$8,683,693 (February 28, 2019 - \$8,170,600). Its ability to continue as a going concern is uncertain and is dependent upon its ability to fund its working capital, complete the development of its exploration projects, and eventually to generate positive cash flows from operations. Management plans to explore all alternatives possible, including joint ventures, debt and equity financings, and merger opportunities.

These interim consolidated financial statements do not reflect the adjustments to the carrying values of assets and liabilities and the reported expenses and financial statement classifications that would be necessary were the going concern assumption inappropriate, and these adjustments could be material.

### **3. Basis of preparation**

---

#### *Statement of Compliance*

These Interim Unaudited Consolidated Financial Statements have been prepared in accordance with International Accounting Standard 34 - Interim Financial Reporting (“IAS 34”) as issued by the International Accounting Standards Board (“IASB”). These Interim Unaudited Consolidated Financial Statements should be read in conjunction with the Company’s most recently issued Annual Report which includes information necessary or useful to understanding the Company’s business and financial statement presentation. In particular, the Company’s significant accounting policies were presented in Note 4 of the consolidated financial statements for the years ended February 28, 2019 and 2018 and have been consistently applied in the preparation of these interim consolidated financial statements. These Interim Unaudited Consolidated Financial Statements have been prepared on a historical cost basis except for certain financial assets which are recorded at fair value. In addition, these Interim Unaudited Consolidated Financial Statements have been prepared using the accrual basis of accounting except for cash flow information.

#### *Basis of Consolidation*

The interim consolidated financial statements of the Company include the accounts of its wholly owned subsidiary Vendome Minas, S.A. de C.V. (“VDR Mexico”). The Consolidated financial statements account of VDR Mexico from the date that it commenced its operations, which was January 1, 2011.

#### *Functional and presentation currency*

These interim consolidated financial statements are presented in Canadian dollars, which is Company’s functional currency.

### 4. Summary of significant accounting policies

---

See annual consolidated financial statements for the years ended February 28, 2019 and 2018 for a list of accounting policies used by the Company.

### 5. Summary of accounting estimates and judgements

---

The preparation of the financial statements in conformity with IFRS requires management to make estimates and judgements that affect the reported amounts of assets, liabilities and contingent liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reporting period. Estimates and judgments are continuously evaluated and are based on management's experience and other factors, including on historical experience and expectations of future events that are believed to be reasonable under the circumstances. Actual results may differ from these estimates and assumptions. The estimates and judgments that, in management's opinion, have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities are disclosed in the annual audited consolidated financial statements.

See annual consolidated financial statements for the years ended February 28, 2019 and 2018 for a list of accounting estimates and judgements considered significant by management.

### 6. Accounting pronouncements

---

#### *Accounting standard issued for adoption in future periods*

The following standard has been issued but not yet effective. The Company is assessing the impact of this new standard but does not expect it to have a significant impact on the consolidated financial statements.

- On January 13, 2016, the International Accounting Standards Board published a new standard, IFRS 16, Leases, eliminating the current dual accounting model for lessees, which distinguishes between on-balance sheet finance leases and off-balance sheet operating leases. Under the new standard, a lease becomes an on-balance sheet liability that attracts interest, together with a new right-of-use asset. There are optional exemptions for short-term leases and leases of low value items. In addition, lessees will recognize a frontloaded pattern of expense for most leases, even when cash rentals are constant. IFRS 16 replaces existing leases guidance including IAS 17 Leases, IFRIC 4 Determining whether an Arrangement contains a Lease, SIC-15 Operating Leases—Incentives and SIC-27 Evaluating the Substance of Transactions Involving the Legal Form of a Lease. IFRS 16 is effective for annual periods beginning on or after January 1, 2019, with earlier adoption permitted. The Company adopted IFRS 16 in its financial statements for the annual period beginning on March 1, 2019 and under the new standard of IFRS 16, the Company has no effect on its interim consolidated financial statements.

### 7. Cash and cash equivalents

Notes to Interim Consolidated Financial Statements

Six-month periods ended August 31, 2019 and 2018

UNAUDITED - PREPARED BY MANAGEMENT IN CANADIAN DOLLARS

- 
- (i) **Ivanhoe Lake Property:** The mineral leases for the Ivanhoe Lake Property were not renewed in March 2019 and all mineral leases related to Ivanhoe Lake have been discarded. Ivanhoe Lake was a greenfield exploration property with possible gold as the target. The Company is focused on Iron, Vanadium and Manganese and determined that the Ivanhoe Lake profile did not fit with management's vision of the Company.
- (ii) **Clinton Manganese Property, British Columbia:** In July 2016, the Company agreed to acquire a 100% interest in the Clinton Manganese property ("Clinton Property") located near Clinton in British Columbia, Canada. The agreement called for a payment of \$20,000 and the issuance of 12,000,000 (pre-consolidation) common shares at \$0.0075. In addition, a finder's fee of 1,400,000 (pre-consolidation) common shares at \$0.0075 were issued in relation of the acquisition.
- (iii) **Mont Sorcier, Iron Ore and Vanadium Project, Quebec:** In October 2016, the Company agreed to acquire a 100% interest in the Mont Sorcier Iron Ore and Vanadium property ("Mont Sorcier") located near Chibougamau in Quebec, Canada. The Company paid \$150,000 in cash and issued 2,750,000 common shares at \$0.175. In order to earn its interest, the Company is obligated to undertake a minimum of \$1 million in exploration expenditures on the property within in the first 24 months following signature of the agreement. The Vendor, Chibougamau Independent Mines, will retain a 2% Gross Metal Royalty ("GMR") on all mineral production from the property. In order to facilitate the deal, Globex Mining Enterprises Inc. (GMX-TSX), which held a 3% GMR on a number of claims, has reduced its royalty to 1% GMR but it has been extended to the recently enlarged claim group. In addition, a finder's fee of 300,000 post consolidation common shares of the Company at \$0.175 was issued in relation to the acquisition. During the previous fiscal year, the Company spent the required funds and earned a 100% interest in the claims subject to the 1%, plus 2%, GMR.

### 11. Accounts payable and accrued liabilities

- a) On December 19, 2017, the Company announced it has completed a private placement financing. Pursuant to the financing, the Company issued 4,636,454 "flow-through" common shares at a price of \$0.11 per share for gross proceeds of \$510,009.94. All securities issued in connection with the financing are subject to a four-month hold period from the date of issuance in accordance with applicable securities laws. A cash fee was paid to finders representing 6% of the gross proceeds raised in the Financing for a total amount of \$30,000.
- b) A total of 1,286,747 warrants were exercised during the year ended February 28, 2018. The Company issued 1,286,747 common shares for warrants exercised.
- c) On October 17, 2018, the Company announced it has completed a non-brokered private placement financing. Pursuant to the financing, the Company issued 3,900,000 "flow-through" shares at a price of \$0.10 per share for gross proceeds of \$390,000. In addition, the Company issued 9,714,784 units at \$0.07 per unit, for gross proceeds of \$680,034.88. Each unit will consist of one common share in the capital of the Company and one common share purchase warrant. Each warrant will entitle its holder to purchase one additional common share at an exercise price of \$0.14 for a period of 24 months following the closing date of the private placement. The Company paid aggregate finders' fees consisting of \$38,849.09 in cash and 396,571 non-transferrable finders' warrants. Each finders warrant entitles the holder thereof to purchase one Unit at a price of \$0.07 per Unit for a period of 24 months from the issue date.
- d) On December 21, 2018, Vanadium One announced it has completed a non-brokered private placement financing. Pursuant to the financing, the Company issued 2,400,000 "flow-through" shares at a price of \$0.25 per share for gross proceeds of \$600,000. There were no warrants attached to this financing and no officers, directors or insiders participated in this private placement. In connection with the financing, the Company paid aggregate finders' fees equal to 5% of the proceeds for a total of \$30,000 in cash. All securities issued in connection with the financing are subject to a four-month hold period from the date of issuance in accordance with applicable securities laws. The Company anticipates that the proceeds of the financing will be used to continue its exploration activities at its Mont Sorcier Iron Ore and Vanadium project.

- e) A total of 525,682 warrants and 300,000 stock options were exercised during the year ended February 28, 2019. The Company issued 825,682 common shares for warrants and stock options exercised.

The Company recognized a premium on the issuance Flow-through shares in the year in the amount of \$261,000 and set up a corresponding liability for this amount. As funds have been expended in the year this liability has been reversed and offset against deferred income tax. At year end the balance of the liability was \$31,838.

There was no transaction during the six-month period ended August 31, 2019.

### (ii) Stock Options

The Company's Stock Option Plan ("the **Plan**") provides for the issuance of a maximum of 10% of the issued and outstanding common shares at an exercise price equal or greater than the market price of the Company's common shares on the date of the grant to directors, officers, employees and consultants to the Company. The option period for options granted under the Plan is for a maximum period of 5 years. Options granted may vest over certain time periods within the option period, which will limit the number of options that may be exercised. All options are being issued under the terms of the Company's Stock Option Plan which was approved by shareholders at the Company's Annual General and Special Meeting on December 18, 2018. Each stock option is exercisable into one common share of the Company at the price specified in the terms of the option. The stock options activity is summarized below:

### 15. Capital Management and Liquidity

The Company considers its capital structure to consist of its cash, common shares, stock options and warrants. The Company manages its capital structure and makes adjustments to it, in order to have the funds available to support the acquisition, exploration and development of mineral properties. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business. The Company manages the capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Company may attempt to issue new shares, issue new debt, acquire or dispose of assets or adjust the amount of cash.

The Company and its subsidiary are not subject to any capital requirements imposed by a lending institution or regulatory body, other than of the TSX Venture Exchange ("TSX-V") which requires adequate working capital or financial resources of the greater of (i) \$50,000 and (ii) an amount required in order to maintain operations and cover general and administrative expenses for a period of six months. As of August 31, 2019, the Company may not be totally compliant with the policies of the TSX-V. The impact of this violation is not known and is ultimately dependent on the discretion of the TSX-V. Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable. There were no changes in the Company's approach to capital management during the periods ended August 31, 2019 and 2018. Neither the Company nor its subsidiaries are subject to externally imposed capital requirements. The Company's capital for the reporting periods is summarized as follows:

	August 31, 2019	February 28, 2019	August 31, 2018

### **Fair Value of Non-Derivative Financial Instruments**

Fair value is the amount that willing parties would accept to exchange a financial instrument based on the current market for instruments with the same risk, principal and remaining maturity. The fair value of interest-bearing financial assets and liabilities is determined by discounting the contractual principal and interest payments at estimated current market interest rates for the instrument. Current market rates are determined by reference to current benchmark rates for a similar term and current credit spreads for debt with similar terms and risk.

The Company values instruments carried at fair value using quoted market prices, where available. Quoted market prices represent a Level 1 valuation. When quoted market prices are not available, the Company maximizes the use of observable inputs within valuation models. When all significant inputs are observable, the valuation is classified as Level 2. Valuations that require the significant use of unobservable inputs are considered Level 3. Level 3 fair values are based on a number of valuation techniques other than observable market data. There are no level 3 values currently recorded on the balance sheet of the Company.

## **17. Financial Risk Management**

---

The Company thoroughly examines the various financial instrument risks to which it is exposed and assesses the impact and likelihood of those risks. These risks may include credit risk, liquidity risk, market risk and interest rate risk.

### **(i) Credit risk**

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its obligations. The Company is not exposed to credit risk due to the nature of the collectible accounts. At August 31, 2019 and 2018, the Company does not have any allowance for doubtful accounts. Management actively monitors the Company's exposure to credit risk under its financial instruments, including with respect to amounts receivable. The Company considers the risk of loss for its amounts receivable to be remote and significantly mitigated due to the financial strength of the party from whom the receivables are due - the Canadian government for harmonized sales tax ("HST") refunds receivable.

### **(ii) Liquidity risk**

Liquidity risk is the risk that the Company cannot meet its financial obligations associated with financial liabilities in full. The primary source of liquidity is net operating income, which is used to finance working capital and capital expenditure requirements, and to meet the Company's financial obligations associated with financial liabilities. Additional sources of liquidity are debt and equity financing, which is used to fund additional operating and other expenses and retire debt obligations at their maturity. In addition to having a working capital deficiency the Company's approach to managing liquidity risk is to ensure that it will have sufficient cash to meet liabilities when due. All of the Company's financial liabilities have contractual maturities of less than one year and are subject to normal trade terms. The Company's ability to continue operations and fund its business is dependent on management's ability to secure additional financing. It is anticipated that the Company will continue to rely on equity financing to meet its ongoing working capital requirements. The Company has a significant working capital deficiency at period end and therefore liquidity risk is considered high.

### **(iii) Market risk**

Market risk is the risk that changes in market price, such as foreign exchange rates, commodity prices, and interest rates will affect the Company's net income or the value of financial instruments. These risks are generally outside the control of the Company. The objectives of the Company are to mitigate market risk exposure within acceptable limits, while maximizing returns. The Company has no significant exposure to market risk.

### **(iv) Interest rate sensitivity**

The Company has no significant exposure at August 31, 2019 and 2018 to interest rate risk through its financial instruments.

### **(v) Foreign Exchange Risk**

The Company is exposed to foreign currency fluctuations as the Company's fully owned subsidiary operates in MXN pesos. The translation effects of changes in exchange rates in the Consolidated Statement of Financial Position were net translation gain of \$Nil (2017 - \$Nil) are recorded within Accumulated Other Comprehensive Income in Shareholders' Equity. Management believes that foreign exchange risk is not significant as at May 31 2019 and 2018.

## **18. Commitments and contingencies**

---

From time to time, the Company may be exposed to claims and legal actions in the normal course of business, some of which may be initiated by the Company. As at August 31, 2019 the Company's management is not aware of any commitments and/or contingencies.

## **19. Subsequent events**

---

The Company announced on October 1, 2019, the appointment of Cliff Hale-Sanders as President, Chief Executive Officer (CEO) and Director and Ashley Martin, who has been appointed Chief Operating Officer (COO). These appointments are effective immediately. The Company announced the appointment of Michael Skutezky to the position of General Counsel and Corporate Secretary. In addition, Pierre-Jean Lafleur will be stepping down as a Director of the Company, however, he remains Vice-President, Exploration. Martin Walter, previously CEO and John Priestner, previously President and COO, will remain as Directors of the Corporation.
